Social Sciences

May 2012

Career History

INSTAGRAM

2022-Present

Product Designer

Drove design for Businesses and Ads on Feed and Reels. Created new components, interaction patterns, and redesigned user flows to make it easier to shop and advertise on the platform. Also oversaw project timelines and QA of designs built and shipped.

SHUTTERSTOCK

2021-2022

Product Designer

Created new photo editing tools and redesigned the website's navigation. Improved information architecture and UX on search result pages. Produced user journeys, personas, flows, wireframes, and prototypes.

BEYOND

2019-2021

UX Designer

Led UX design for a variety of digital products and features from conception to development, particularly internal tools and design systems. I created user journeys, personas, flows, wireframes, and prototypes. My clients include Google, Paypal, Mailchimp, New York Post, and Snapchat.

GUGGENHEIM

2017-2019

Exhibition Designer

Created floor plans and designed visually appealing, educational, and safe displays for objects on show. I produced 3D models and physical scale models and collaborated with curation and construction to produce over 9 new exhibitions every year.
