Cover Letter narrative

From: Timothy Paul Egnor

To: Search Committee

Please accept this letter of application and brief resume for Interim Superintendent of Volusia County Schools.

My 29-year long career with Volusia County schools, and my almost 9-year experience with St. Johns County Schools, has offered the opportunity to acquire a unique set of skills and experiences that I believe would meet the needs of this position. I understand and appreciate the Volusia system, and I also have had immeasurably valuable leadership and learning experiences in a different, and very highly rated Florida District.

In Volusia I served as a teacher, assistant principal, district administrator and for 12 years, the principal of Spruce Creek High School in Port Orange. In St. Johns, prior to retirement, I served as an Associate Superintendent for Curriculum. Additionally, I had significant experience in various leadership positions with International Baccalaureate.

As Associate Superintendent I was part of the Superintendent's Cabinet and was involved in most facets of district operations including unique and accountable budget practices, contract negotiations, presenting to legislative committees, and of course my primary responsibility of developing and implementing policies that grew and supported a cultural of student learning and character development.

I have been described as highly informed and competent, a gifted team builder, very industrious, and an honest broker with a sense of humor. I am known to be able to bring diverse stakeholders together to work towards common goals. Most importantly, my reputation is built on my sincere commitment to the mission of ensuring student learning.

My roots run deep in Volusia, to include a granddaughter who attends school there and a daughter who is a middle school teacher. My wife is a native of New Smyrna Beach and all three of our children attended and graduated from Volusia County schools. I have a commitment to serve in a manner that will enable the Board to feel certain the district is in good hands while they work to select the best leader for the future of Volusia County Schools. I do not take this challenge lightly; but I hope the Committee will agree that I have the skill set and demeanor to earn the opportunity for an interview.
