

THOZI DLAMBULO

Graphic Designer

Personal Profile

I am an emerging and ambitious Graphic designer who is eager to learn new things and willing to work in any environment where there is growth. I regard myself as an all rounder with the easy and understandable designs. During the period of studying I found myself as an illustrator who can clearly share his world with the outside world as in general.

Achievements

In 2016 I was a part of a team that started a new community radio station with success, in 2017 the station was nominated in South African community radio awards. I am a graphic design graduate from Red and Yellow creative school of business.
