THAT'S WHAT I DO

This is a showcase of my different skills through the Design Process of a product. It's based on an actual project I developed with my team while working as a **Director of the Design Department and R&D Manager** at "Cancio - Fábrica de Muebles" (Furniture Manufacturing).

1000+ units of the chairs Atlas & Nuba have been sold since its release less than one year ago.

The real project took place inside the +13000m² factory the company has in Spain, specialised in wood and metal manufacturing, where I worked for 2+ years in the Design Studio and the Workshop.

[WEBSITE](#)[360° PORTFOLIO](#)

Inside my 360° portfolio you will find everything that I've done, inside this unique space I have created.

HI! I'M JORGE VALLE,²⁵
AND I COME FROM THE OTHER SIDE OF THE WORLD.

LITERALLY

BORN IN VALLADOLID (SPAIN)
LIVING IN WELLINGTON (NEW ZEALAND)

FUN FACT: Valladolid and Wellington are **exact antipodes**. Which means that I live on the opposite point on Earth from where I was born.

Having great ideas is equally important as being able to make them real. And those are my main features.

A wide range of design skills (from art to coding) and knowledge of industrial engineering allows me to turn into reality everything I can think of.

I am definitely an asset to a team.

CREATIVE.
I LOVE CHALLENGING MYSELF
TO REACH NEW LIMITS.

FREELANCE

CONTRACTS FOR 20+ COMPANIES
(GRAPHIC DESIGN AND WEB DEVELOPMENT)

PLUS UNIVERSITARIO

DIRECTOR, DESIGNER, ARTICLE WRITER, SOCIAL MEDIA
AND SALES MANAGER

Personal project where I created a monthly magazine targeting
university students and financed by advertisers.

LECTURER AT UNIVERSITY OF VALLADOLID

3D DESIGN - 4 WEEK COURSE

CANCIO - FURNITURE MANUFACTURING

STARTED AS AN INTERNSHIP

*PROMOTED TO GRAPHIC DESIGNER & WEB DEVELOPER

*PROMOTED TO DESIGN DIRECTOR + PRODUCT DESIGNER
+ R&D MANAGER

Head of the Design Department, leading a team of young
designers and gaining responsibility over more than 2 years
in one of the leading furniture companies in Spain, 50+ years
old and 4+ M€ yearly income.

My studio was next to the factory, so I had the opportunity to
follow the manufacturing process really closely. Also I could
build my own fully-functional prototypes using primary wood
and metal.

Helping in the development of 20+ new products, I eventually
had the chance to bring my own designs to life with the chairs
Atlas & Nuba, as well as a collection of space-saving bars
(along with Mario Martínez Cenicerros, co-designer).

AWARDS:

DESIGN AWARDS 2016 "REVISTA COCINAS Y BAÑOS"
(KITCHENS & BATHROOMS #1 MAGAZINE IN SPAIN)

SLIDE BAR - BEST AUXILIARY FURNITURE DESIGN - WINNER

CANCIO APP/WEB - BEST ONLINE SERVICES - NOMINATED

2016

2017

AND HERE I AM

I moved to New Zealand, where I've been travelling,
practising photography and polishing up my English.
Also I've been boosting my 3D design skills during these
last months while putting this portfolio together.
