Summary

Chemical Engineer having 15 yrs of experience in IT companies in Software Development, Business Analytics, Data Analytics, Business Development & Project Management and 9 years of experience in Non IT companies and in handling own business of stock market trading and Investment. Having all Practical skills which is there in MBA Information Technology, MBA Business Management, MBA Financial Management, MBA Marketing, MBA Export – Import, MBA HR, MBA Taxation, MBA Insurance.

Team Management & Project Management, Client Interaction, Project Evaluation, Estimation, Requirement Gathering, Documentation, Design & Architecting, IT Business Analysis, Technical Writing, Research Analysis, J2EE, EJB, Servlet, JSP, JDBC, JNDI, Java Beans, Core Java, OOAD, Struts, Hibernate, Spring boot, STS, Spring Security, Postman, Microservices, Docker, Kubernetes, Apache Kafka, ThymeLeaf, Angular, NodeJS, React JS, Type Script, AWS, Restful Web Services, Lambda, XML, JSON, JavaScript, JUnit, Ant,   UML, Eclipse, NetBeans, RAD, Web Sphere, Web logic,JBoss, JRun, Tomcat, mySql, oracle, SQL Server, J2ME, .Net,VBScript, Java FullStack, Java 8, API, DevOps, ERP, CRM, SAP, EAI,Testing, Selenium, Jmeter, Agile Scrum,

Cypress,Python, Pyspark, Cloud, Linux, Ubuntu 20, OOP, SOA, Azure, GCP, CSS, HTML, Product Design, Product Delivery, Product Manager, Cucumber FW, DB2, MongoDB, DESIGN patterns, jQuery, Jakarta EE9, Jax-rs, JPA, mockito, Agile development, Debugging, Unit testing, Data Structure,Data Modeling, ASP.NET, MVC, Unix Scripting, JIRA, SOAP API, GIT, GitHub, Multithreading, SDLC, TroubleShooting, Maven,SQL, AJAX, Technical Management, C, C++, C#,PHP, System Design, Technical Support, SaaS, ERP Cloud, HR Cloud, Supply Chain Cloud, marketing cloud, Sales Cloud, Service cloud. OPENAI chatGPT, AI,Google Gemini, Microsoft Co-piolet, Data Science, Data Analytics, Data Engineering, Digital Marketing, social listing tools HubSpot, HootSuite, Google Analytics, Google Ads, Facebook AdsManager, Content Marketing, SEO, youtube Analytics, youtube studio, kaggle. Big data processing tools like apache, Bigspark, Hadoop,Hive.Proficiency in statistical analysis and visulization tools and software like IBM Cognos, IBM SPSS, Oracle Visual Analyzer, MicrosoftPower BI, SAS, Tableau.Web Scraping.technologies used to process data streams include kafka, apache Spark, apache storm.Data Wrangling, Data Mining, GoogleSheets, zohosheets, VLookup & XLookup Function, Jupyter Notebook, R- Studio, R-Shiny, IBM Cognos Analytics, Microsoft Power BI. Business analysis tools software like JIRA, Excel, Trello, tableau, FogBugz, planbox, rally, targetprocess, VERSIONONE.Agile Methodology, Scrum Mehtodology, Google Ads,Salesforce CRM, Oracle CRM, Peoplesoft, Web Testing tools like selenium, Play Wright, Cyprus and mobile app testing tools like Appium.

Ability to predict the future of next generation industries by inventing it. Ability to think-work in two direction at a same time.

Have a great vision. Inventors, Innovators and forward thinker. Top Management skills. Supply chain, Engineering services, Costing, Business Planning, Cash Management, Taxation, Outsourcing, Techno Commercial skills. Ware House, Pre Engineered Building, Project Sales, Construction, Corporate Governance, Structural Design, Project Design, Proposal Preparation, Industrial Projects, Business development, Contracts. Aware about various domains and business process. Familiar with latest technologies. Positive and healthy habits essential for excellence. System thinking capabilities. Team Management &Communication Management. Ability to think through seemingly unconnected global events to decipher how they will impact the strategic architecture of IT business. Understands the strategy in technology driven organizations & Market. Ability to handle politically sensitive situation.

Ability to convert business requirement into technology. Ability to judge best technology, tools, methodology, suitable manpower for any project. Ability to work under pressure and create pressure on others. Aware about laws and regulations. Ability to convert complexity into simplicity. Understand the psychology of human beings.

Goal Setting, Industry Training, Interpersonal Skills, Knowledge Acquisition, New Business Development,Business forecasting, Development Strategy, Sales Campaigns, Skill Development, Target Driven, and Written Communication, Business Consulting, Account Marketing, Client Relations, Networking, New Business Opportunities, Relationship Development, Sales Prospecting, Functional skills, Case Studies, Content Creation, Knowledge Acquisition, Marketing Analytics, Marketing Campaigns, Marketing Materials,Bid Analysis, Government Proposal Writing, Proposal Management, Proposal Writing, Business Strategy,Cross-functional Team Leadership, Product Development, E-Commerce, Direct Mail Marketing, Customer Segmentation Strategy,Life Sciences, Operations Management, Marketing Budget Management, Marketing Campaigns, Online Advertising, Public Relations, Social Media, Written Communication, customer support, Product Support, Troubleshooting, Product Marketing, SEO, Oracle Enterprise Resource Planning Cloud, Post-production Support, Service-Level Agreements.

Excellent Team Building, People management, Time Management, Stress Management, Presentation, Organizational, Negotiating, Client handling skills.Decision making skills. Self motivated, Dedicated , Innovative Policy Maker, Visionary, Highly Professional, Fun loving & Diplomatic and Research Oriented person.

Educational Qualification

SSC – Distinction (84%) in March 1994 from Virani High School, Rajkot, Gujarat Board.
HSC – Distinction (70%) in March 1996 from Virani High School, Rajkot, Gujarat Board.
B.E .Chemical - First Class(66%) in May 2000 from V.V.P. Engg. College, Rajkot, Saurashtra University.
MBA Marketing Management – 85% in 2016 from Manipal University.

IT & Non IT Experience

1. **N-Experts Solutions Pvt. Ltd., Rajkot (April 2022 – till date)**
   Lead Software Engineer

2. **Infosys , Bengaluru (Sep 2021 to March 2022)**
   Principal Analyst

3. **Dun & BradStreet , Rajkot (April 2021 – Aug 2021)**
   General Manager

4. **Suzy Industries Limited , Rajkot (Jan 2021 – Feb 2021)**
   General Manager

5. **J V Group, Rajkot   (Aug 2017   - Dec 2017)**
   Relationship Manager & Dealer

6. **Trade India , Rajkot   (Feb 2016 – June 2016)**
   Marketing Manager

7. **Mayur Straps & Industries , Rajkot (Jan 2015 – July 2015)**
   General Manager

8. **Aegis Software, Rajkot (Sep 2013 to Jan 2014)**
   Java Developer

9. **DHFL , Rajkot   (Feb 2012 – July 2012)**
   Sales Manager

10. **Artech Infosystems , Noida (Oct 2011 to Dec 2011)**
    Max New York Life Insurance, Gurgaon – Client
    Sr. Java Developer

11. **Ace Infoway Pvt. Ltd., Rajkot   (June 2011 to Sep 2011)**
    Project Manager

12. **Adventity Global Services Pvt. Ltd, Mumbai (June 2008 to Jan 2009)**
    System Analyst

13. **MindCraft Software Pvt. Ltd , Mumbai (Oct 2007 to Dec 2007)**
    Kotak Mahindra Life Insurance- client
    Project Leader

14. **Systime (CMS Group)   – Mumbai (April 2007 to Sep 2007)**
    Senior Technical Consultant

15. **Infinite Computers Ltd. - Bangalore (Sep- 2005)**
    Sr. Software Engineer

16.   Edisoft Technologies & Solutions Pvt. Ltd. ,Bangalore (May 2005 to June 2005)
      i-flex Solutions ltd , Bangalore- client
      Software Consultant

17. Tarang Software Technologies , Bangalore (Dec 2004 to April 2005)
      Sr. Engineer – Development

18. Zensutra , Bangalore (Sept 2004 – Nov 2004)
      Software Consultant

19. Asite Solutions , Ahmedabad (May 2004 – July 2004)
       Junior Developer

20. Teamware Solutions – Bangalore (April 2004)
       Tata Consultancy Services – Mumbai - Client
       Software Engineer

 21 . e-telligence technologies pvt. ltd., Ahmedabad (June 2001 to Sep 2002)
       Java/J2EE Programmer

Projects Undertaken

Title : Employee Management System(April 2022- present)
Employer : N-Xperts Solutions
Environment : SpringBoot, Hibernate, Angular, NodeJS, ReactJS, Postman, STS, Tomcat, Websphere, mySql, Microservices, API Gateway, Ubuntu 20, Kafka, Docker, kubernetes, Java 8, Restful webservices, SQL, Cloud, AWS, Oracle, .NET, PHP, Phython, Google Data Studio, Git Hub .
Description : User can add, edit, delete employee details through this project.
Responsibilities : Design, Architecting & Development, Deployment, Configuration, Installation, Code Review, Business development, Client Management, Reasearch, Innovation, Project management, Sales & Marketing, Advisor to CEO, Organization level changes, Business Analysis.

Title   : Co brand Configuration (Jan 2022- March 2022)
Employer : Infosys
Client : Yodlee - US
Environment : AWS Cloud, Tableau, RapidMIner, Orange, Jupyter Notebook, Apache Spark and Hadoop , Microsoft Excel, Microsoft Power BI, SAP BusinessObjects , TIBCO Spotfire , SpringBoot, Hibernate, angular, Microservices, Restful webservices, SAP Analytics Cloud , JIRA, KNIME , Seleinium,ChatGPT 4
Description : It is an admin tool which creates and configure cobrands of various applications of Yodlee. It will configure the GUI featues,some controlling features like auto login, SSO features, switch features of Yodlee applications. LIke billDirect-which allows you give your customers full bill presentment of billers, comelling personalized alerts, and proactive expense management tools –all at a fraction of cost to todays EBPP solutions, by utilizing the biller –direct model and Yodlles patented auto login capabilities. Yodlles advisor view product will arm financial advisors with a complete view of their clients held away financial relationships in order to bring additional assets under management and provide superior advice.

Title : Asite Project Work Flow (Sep 2021 – Dec 2021)
Employer : Infosys
Client : UK industry leaders like Travel Inn, Laing O'Rourke
Environment : Tableau, RapidMIner, Orange, Jupyter Notebook, Apache Spark and Hadoop , Microsoft Excel, Microsoft Power BI, SAP BusinessObjects , TIBCO Spotfire , SpringBoot, Hibernate, angular, Microservices, REstful webservices, SAP Analytics Cloud , JIRA, KNIME, Selenium,chatGPT 4
Domain : Construction Industry of UK.
Description : Asite Project workflow is a cost-effective, flexible solutions that enables members of a project team to manage the review of project documents and better control project processes-improving response times and reducing project risk.Asite Project workflow provides document and process workflow

together with the document management functionality of asite project workspace. Improve project efficiency by electronically co-cordinating document publishing , distribution and review, as well as project communicaitions.Asite project workflow also reduces through a comprehensive audit trail.

Title   : My Money My Agent (Oct '11 to Dec '11)
Employer   : Artech Infosystems
Client   : Mastek
SubClient   : Max New York Life Insurance
Domain   : Insurance
Environment : Core Java, J2EE,EJB, JSP, Servlet, JDBC, JNDI, JavaScript, Web services, WebSphere, Oracle, Spring , Hibernate, SOA.
Description : This system has been used by MNYL across more than 6000 centers in India and abroad. MMMA has two modules My Money and My Agent. It is three layered arthitecture.
Responsibilities : coding, code review, resolving various issues and tickets, configuration and deployments, designing and architecting the application.

Title   : Reliance Retail Application(June '08 to Jan '09)
Employer   : Adventity
Client   : Reliance
Domain   : Retail
Environment   : Ecllipse, JBoss, JSF, EJB, JDBC, JNDI, Oracle, Spring, Hibernate.
Description   : Reliance Retail has many applications. At Adventity we are developing User Management and Insurance policy module. In User Management module we are authenticate and authorize Users by MSR Transfer model. There will be different levels like store user, store manager etc. In Insurance Policy module customer's insurance details will be filled up and verify.
Responsibilities : Team Management, Client Interaction, Documentation, Send weekly reports to the client, Requirement Gathering, Research and Development, code review, Deployment and configuration on applicaton server.

Title   :   k-life   (Oct '07 - Dec'07)
 Employer   : MindCraft software Pvt Ltd
Client   :   Kotak Mahindra Life Insurance
Environment :   IBM Websphere Portal, Websphere Server, IBM RAD , LINUX
Description   :   Development of Application using Kotal Mahindra Life Insurance Portal   and deployed it on Websphere application server.
Responsibilities : Setup of Development Environment, Deployment and Testing of applications,Configuration of application server, Project Management, Research and Development, Client Interaction, Requirement Gathering, Project Evaluation.

TiTle   : MIMS (Meter Information Management System)(April '07 – July '07)
Employer   : Systime – CMS Group
Client   : Intermoco , Australia
Environment : JBossIDE for Ecllipse, Struts, Spring ,Hibernate, EJB3.0, UML, Toad, OOAD, Oracle.
Description   : Intermoco Solutions Pvt Ltd will be using MIMS replacing the existing legacy system so as to increase the automation of its data collection, reporting and billing processes. The billing process will be perform according to the define rule of NEMMCO. Requester can request data with the help of NMI (National Meter Identifier) i.e. is a unique address for particular location and date range which is then check, validated and accordingly MIMS system will response to the requestor. It has 3 major components: Utiligy Portal, NOC(Network Operation Centre) and B2B Server. Utiligy is designed to extract data from an electricity meter at a business or household and transmit that data to a real-time data hence it plays a major role by providing web components and functionality that provide ease-to-use and immediate access to all business critical data. All communication between Utiligy portal and NOC take place in an XML format i.e. aseXML format which is a standard for Energy transaction in XML. NOC manages a wide range of services and provide functionalities such as validate meter data, estimate missing data and substitute with appropriate meter data, billing process, maintenance of data etc. B2B server is responsible for retrieving data NEMMCO hub, perform primary validation on it and storing the data in the database. NEMMCO hub has a file server which contains an inbox and outboxes for each market participant.

Team Size   20
Responsibilities : Project Management, Research and Development, Client Interaction, Requirement Gathering, System Analysis and Design, Project Evaluation, Development of Technical and functional specifications, Testing of developed applications, Setup of Development Environment.

TiTle   : HIG - DCP(Diamond Certificate Program)(July '07 - Sep '07)
Employer   : Systime – CMS Group
Client   : HIG , US
Domain   : Direct Marketing
Environment   : Ecllipse , JBoss AS 5.0, J2EE, Struts, EJB, JDBC, Java, XML, JUnit, UML, OOAD.
Description   : This Project Provide a system for consultants to view and shop for prizes based on the number of certificates they have earned. Establish processes to transfer consultant data to and from TMC and HIG. Provide a system allowing consultants to access Consultant Connection/Tools/Diamond Certificate and seamlessly link to TMC'S redemption web site. Detailed results will be provided to the consultant, summary results will be available to the entire down line. Tools will be provided to the Consultants, Unit Directors and Branch Directors, including the Regional Sales Directors.
Team Size   15
Responsibilities : Project Management, Research and Development, Client Interaction, Requirement Gathering, System Analysis and Design, Project Evaluation, Development of Technical and functional specifications, Testing of developed applications, Setup of Development Environment.

Title   : Customer Acquisition Due Diligence (CADD)System (May '05 - June '05)
Employer   : Edisoft Technologies & Solutions Pvt. Ltd.
Client   : I-Flex Solutions Ltd, Bangalore Sub client   : CitiGroup   - CitiBank
Environment   : Eclipse , Web logic , J2EE, EJB, Servlet, Struts , JSP, Java Beans, Oracle9i
Description   : The objective of this project is to develop an automated tool to assist in compliance with corporate due diligence and CIP requirements and replacing the existing Customer Acquisition Due Diligence paper forms with an on-line data gathering and workflow management system for Corporate and FI relationships. Consequently, this solution seeks to facilitate the related compliance related matters embedded in the account opening process by increasing the efficiency of the workflow, and minimizing deviations from corporate policy. It will also serve as a key element to strengthen the internal control environment by providing the GTS business units with online validation checks. Furthermore, by requiring an automated account opening platform, GTS business units will be in a better position to integrate their account opening procedures with other AML risk management tools.
Team Size   30
Responsibilities : Understand the software development Life cycle of project and customization according to client requirement, application server configuration at the time of deployment , UNIT Testing and handle team members and Integrate work of Developers.

Title   : Continuous Market Intelligence System (Dec '04 – April '05)
Employer   : Tarang Software Technologies pvt ltd.
Client   : Decisive Analytics , US
Environment   : OOAD, Eclipse , Editplus, Tomcat , Struts, JMS, J2EE, JNDI, XML, Oracle9i
Description   : It is a web based software tool that will enable enterprise clients to design Perform , manage, analyze and share marketing data projects. The system and its component parts are designed to work flexibility together , and with seamless case of use. The system also includes integrated tools for data modeling and data mining functions , as well as a series of wizards to facilitate system use from novice to expert levels , across the organization. The system will enable the enterprise customer who is a subscriber to the web based software to conduct a wide variety of online research projects quickly , inexpensively and with professional standards. With its centralized communications and reporting tools ,it enhances how companies can share and use critical market intelligence data throughout the organization.
Team Size   20
Responsibilities : System analysis and Designing with UML and code Generation with Rational Rose, Code review, bug fixing, coding, customization and handle team members, Source code management tools CVS -VSS

Title   : WebTelemed (March '02 – Sep '02)
Employer   : e–telligence technologies pvt. ltd.
Client   : NutraMed Inc.
Environment   : JSP, JDBC, Java, JRun, SQL Server.
Description   : This application is a medical boon in the current scenario, which enable patients to send his medical documents (High Resolution Images like X-Ray, CT Scan etc., Video Clips, Audio Clips) to the Expert Doctor. Patient can view comments and suggestions generated by Expert Doctor after reviewing patient' medical documents.
Team Size   3
Responsibilities : Project Evaluation, Programming, Documentation, source code Management, maintenance and Enhancement.

Title   : Online Result (June '01 – Jan '02)
Employer   : e–telligence technologies pvt. ltd.
Client   : Indo German Institute
Environment   : Servlet, Applets, JDBC, Java, JavaScript, Tomcat, SQL Server, Photoshop, DreamWeaver.
Description   : The basic aim of Online Result is to get detailed results of the state board. The client/student submits his roll number through a JavaScript form. The roll number is parsed through the Servlets and result is obtained from the Database using the JDBC connection and SQL Statements.
Team Size   :   5
Responsibilities : Project Evaluation, Programming, Documentation, source code Management, maintenance and Enhancement.
